

Chanuki Semini Hettiarachchi

Computer Science Undergraduate

Passionate Computer Science undergraduate driven by curiosity and a love for building things that work. From crafting responsive web interfaces to developing data-driven applications, I thrive on turning ideas into real, functional solutions. Currently seeking an internship to bring fresh energy and hands-on project experience to a dynamic tech team.

Education

- **BSc(hons) Computer Science**
Informatics Institute of Technology (IIT)
(Collaborated with the University of Westminster)
- **BSc. Information Communication Technology (Physical Science)**
University of Sri Jayewardenepura
- **G.C.E Advanced Level Examination (2023)**
1B 2C in Maths stream with ICT
Gothami Balika Vidyalaya – Colombo 10

Academic Projects

StyloQ – Independent Barber web Application (Group Project)

- A web platform connecting barbers, customers and salons for appointment booking and talent recruitment
- Designed the complete UI/UX prototype for all pages using Figma
- Implemented all barber facing pages including dashboard, profile management, appointment tracking and job vacancy features using React and custom CSS
- Contributed to functional and compatibility testing documentation

Java Based GUI Sales Management System

- Building a retail sales system with secure login, product management and automatic invoice generation
- Designed 6 interactive screens using Java Swing with real-time sales calculations
- Connected Java application to MySQL database to store and retrieve sales records

Portfolio Website

- Built a fully responsive 4-page website with mobile hamburger menu & smooth navigation
- Implemented dynamic typing animation and modern UI with consistent color theme
- Deployed across Home, About Me, Projects & Contact pages with clean section based layout

Traffic Data Analysis System

- Processed & visualized CSV based traffic data with histogram generation
- Implemented date validation, leap year handling and file error management
- Analyzed peak traffic hours to generate insights for traffic management

Technical Skills

HTML

CSS

React

JavaScript

Python

Java

MySQL

Git/GitHub

Figma

Soft Skills

Analytical and Critical Thinking

Time Management

Team Collaboration

Logical Decision Making

Technical Interest

- UI/UX Design and Prototyping
- Full stack Development
- Exploring new technologies in Artificial Intelligence
